Dr Anubhuti Shukla,

Academic Head - CAIE

“Tell me and I forget.

Teach me and I remember.

Involve me and I learn”

As rightly mentioned by Benjamin Franklin, today's education is more about student participation in teaching learning process, rather than being passive listeners. Keeping this very fact, Ambitus World School is successfully implementing an International curriculum, Cambridge, in four of its campuses. Cambridge Assessment International Education is the world's largest provider of international education programmes, right from early years till senior secondary. We at Ambitus schools, wish to set the global standard for international education, ensuring that our Ambitarians are epitome of Cambridge learner attributes, Confident, Responsible, Reflective, Innovative, and engaged. We second that learning is not achievement merely by chance, it needs to be sought for with avidity and addressed to with conscientiousness.

Teaching and learning at Ambitus dwells into our continuous efforts to improvise learner's twenty first century skills, be lifelong learners, foster new connections and have a better understanding of the world around us. Education is the virtuous driver of development and one of the strongest weapons for reducing poverty, improving health, peace and stability. The onus is on us to sensitize our children about these so that they are able to face the challenges and maneuver, once they step out.

Our heart swells with pride when we look back and count our accomplishments of a decade's journey of giving world class education to craft young minds. Our academic and non-academic modules are programmed to cultivate independent research and critical thinking skills, as well as deep subject knowledge to confirm that we are preparing students to succeed at university and beyond.

I would like to conclude by unveiling a relatable quote given by Malcolm X,

“Education is the passport to the future, for tomorrow belongs to those who prepare for it today”.

Ms. Lalitha Naidu,

Head of School, AWS - Hyderabad

Strength of character.....

It is imperative for all to develop the strength of character. There are several instances in the past where one compromises on values and principles causing damage to not only self but to the entire society one lives in. If an engineer lowers the quality of construction of a flyover or a bridge due to illegal financial gains, this would result in the loss of lives. History has it that when the ancient Chinese decided to live in peace, they made the Great Wall of China; they thought no one could climb it due to its height. During the first 100 years of its existence, the Chinese were invaded thrice, and every time, the hordes of enemy infantry had no need of penetrating or climbing over the wall, because each time, they bribed the guards and came through the doors. The Chinese built the wall but forgot the character - building of the wall guards. Though the Great Wall has over the years become a powerful symbol of the country's enduring strength and spirit, it has actually been a good reminder to the Chinese of the superiority of human character. The Chinese realized much later that the best defense against the enemy is not a fortified wall, but a fortified character. Thus, the building of human character comes before the building of anything else. At School, dear children we take up various programs and events all leading towards building your personality. Each and every little action at school gears up for constructing the right beliefs and attitudes in you so that you people become the change agents in the world. Our aim is not to only provide you with your cognitive abilities alone, your affective domain is equally important, and above all the fact that you need to respect all beginning of course with your own self. Another incident to remind us about our actions is in the days when Germany was divided, a huge wall separated East and West Berlin.

Ms. Ruchi Gulati,

Head of Centre, Ambitus Kinder World

Children are Gifts.....Treasure them

"Climb every mountain, ford every stream, and follow every rainbow, till you find your dream"

It is a new beginning for all of us. We welcome you all wholeheartedly. It's nice to see that our Ambitus family is growing. At Ambitus we are committed to discover our students. We equip them to take on challenges, be loving, love learning, be part of the community, laugh and be all they can be. At Ambitus, the successful learning of language is done playfully and is included to every daily activity.

Early years is one of the most important years of the child's academic career, a time when attitudes towards the school is formed. Early years helps to build a foundation for learning. We can build strong one, by working towards the same goals for the benefit of our child.

Let's nurture our little ones with love and care. Children are

Magical, fly with them.

Lovable, cherish them.

Amazing, acknowledge them.

Energetic, nourish them.

Joyful, appreciate them.

Kind hearted, learn from them.

Spontaneous, enjoy them.

Vulnerable, protect them.

Yearning, notice them.

Whole, recognize them.

SPOT LIGHT

AMBITUS WORLD SCHOOL, HYDERABAD

Investiture Ceremony

"If your actions create a legacy that inspires others to dream big, learn more, and do more, then you are an excellent leader."

The investiture ceremony is that solemn occasion when we as a school, respect and acknowledge the upcoming leaders and repose our faith in them. To grace this occasion, we had a dynamic personality in person, the Chief Guest for the day, Col C.V. Das, who is Incharge of training the Agniveers.

The investiture ceremony is the first major celebration at the beginning of an academic year. It is here that we entrust faith and hope in our newly appointed prefect council. It was a memorable day for all office bearers with pride as well as a sense of responsibility moment to stand as leaders before their fellow mates. The occasion marked a new beginning by building the future leaders of our country.

Students voted for the Student Council, with grade 10 students being elected as House Captains and grade 9 students as House Vice Captains. The ceremony was graced by the presence of Dr. Samba siva Raju V, the Secretary of the Andhra Pradesh Information Commission, who gave a speech emphasizing the importance of nurturing leadership

qualities right from childhood. Dr. Abhishek Sharma, the school's principal, encouraged the council members to embrace challenges, think innovatively, and strive for excellence. The ceremony concluded with a parade display and the National Anthem.

AMBITUS KINDER WORLD, HYDERABAD

Peek In Day

Peek-in day is a crucial event in the academic calendar, providing an opportunity for parents to interact with the school and form a stronger relationship. Parents and our little learners were enthusiastic throughout the

session. A Future Readiness Session was conducted to make the parents aware of the changing educational needs and their role in the growth and development of their children, besides sharing the rules and regulations of the current academic year. During the session, the parents were actively engaged in hands-on activities to experience the Transdisciplinary approach.

International Educational Tour:-"Europe Trip"

Ambitus proudly established yet another year of escorting children to an exciting and successful safe "EUROPE TRIP". A memorable journey through Belgium, Netherlands, and France. After thorough research in fetching the global perspective of the countries they were traveling to, the real-time experience was worth a memory. Children returned back safely to their parents and proved their interest and confidence as a globetrotter.

ACADEMICS

AMBITUS WORLD SCHOOL, HYDERABAD

GREEN DAY

Little munchkins of Ambitus CEY to Grade II celebrated Green Day with fun, fervor, and enthusiasm. Green is the colour of life and the renewal of energy. The greenery with beautifully decorated premises to the sapling-based takeaways added colour to the ambience. Activities like the show and tell, green vegetables and its importance, and the green jalzeera drink as complimentary was the takeaway from our green day celebration.

Peek In Day For CEY To Grade X

The new academic year for CEY to Grade X started with a Parent Orientation Sessions which is called as "PEEK-IN-DAYS" in our school. Introduction of teachers and staff, the academic roll outs, the protocols and policies were shared with parents, who are now abreast with schools functioning patterns. A good beginning assures success. At Ambitus we forge a strong bond with our parents. Ambitus wishes a new and successful new academic year to everyone.

AMBITUS WORLD SCHOOL, VIJAYAWADA

Investiture Ceremony

"Leadership is not about titles, positions or money. It's about service, responsibility, and making a difference in the world." - Bob Greenleaf

Ambitus World School held its Investiture Ceremony on July 1st.

World Conservation Day

World Nature Conservation Day is an annual event held on July 28. This day stresses the need for preserving a healthy environment and natural resources to maintain a stable and healthy society. Saving plants and animals that face the threat of extinction is one of the primary goals of

World Nature Conservation Day. Children understood the importance of environment and expresses their thoughts through beautiful posters and drawings.

GRADE II: Knowing our country through map

Map skills are essential for students as they navigate the world around them, both physically and digitally. By developing map skills, students can learn about their community, state, country, and the world beyond. These skills are not only vital for social studies units but also for everyday life. Keeping all these in mind, map reading activity was conducted in Grade II classes.

GRADE II & III: Art Activities

The Grade II & III students created vibrant and imaginative artworks that showcase their creativity and budding artistic skills. The art works capture the innocence and enthusiasm of the young artists, highlighting their unique perspectives and boundless potential in the world of art.

Advaith - Grade II Indigo | Rohith - Grade III | Riyansh - Grade III

Grade III: French

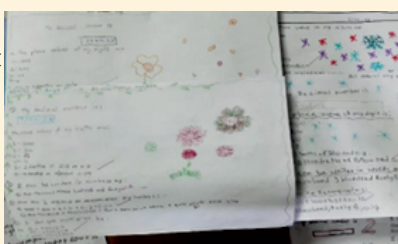

Topic- Flash cards to learn new vocabulary

Activity-based learning makes the class interesting, fun loving and enthusiasm for learning. It makes them active and liking towards the subject which evolves the interest and keeps them motivated in learning. Kids thoroughly enjoyed making the flash cards and added their creativity to them. This type of learning keeps them refreshed and focused towards the language.

GRADE IV: Math Activity

Self - assessment learning empowers individuals to reflect on their progress, strengths, and areas for improvement. This approach encourages a deeper understanding of the subject matter and fosters a sense of ownership over one's

education. Grade IV students did self-assessment of learning about decimal numbers. Learners wrote their own decimal number and exhibited their creative skills, by decorating their activity sheets.

GRADE V: English Activity

On the 3rd of August, Grade V learners engaged in an enriching activity that involved the creation of the class newspaper. This collaborative endeavor proved to be advantageous as it fostered a sense of teamwork and unity among the students. Working together on this project allowed the students to enhance their communication and organizational skills, while also promoting creativity and critical thinking.

Science Experiment

'You teach me I learn, you do it I remember'. To prove this quote, Science experiments were planned for Grade I and Grade II children. Through the Walking Water Rainbow Science experiment, students learned about colors, color mixing, capillary action, and more. Further, they did the burning candle experiment and observed how air is needed for burning.

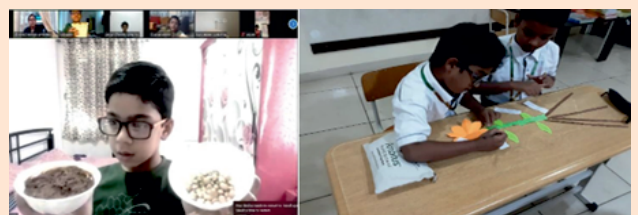

Grade VI: Model Making Of A Plant And Animal Cell

Group activity is showcasing model of a plant and animal cell. Learners have demonstrated their understanding of the basic structure of a plant and animal cell and also explained the functionality of each of the cell organelles. They were able to differentiate between the animal and the plant cell and explained how the cell forms a basic unit of any organism.

Make Me Into A Plant

No matter its online or offline, our goal is to make the learning interesting and enjoyable. Children learnt Germination and were excited to know how their baby plant will grow by sowing seed and observing them grow. Children labelled different parts of a plant and explained their functions.

"Mastering Tenses: A Dynamic Exploration Of English Language Proficiency"

Among all the activities carried out thus far in the realm of learning English as a language, the tense activity holds a special significance. This particular activity is conducted in both 7th and 8th grades. Following the instruction of the topic, the students were divided into four groups. Each group provided an affirmative sentence, a negative sentence, a question, and a negative question as examples, all employing the same subject and verb.

The subsequent group was tasked with transforming these sentences into the present continuous, present perfect, and present perfect continuous tenses. In the subsequent phase, each group swapped their sentences to perfect each tense. This pattern continued for past and future tenses, with a focus on practicing rather than mere recall. The activity has proven to be quite rewarding.

"Unveiling Science: Igniting Curiosity Through Hands-on Discovery"

The science laboratory is a place where students practically observe the proof of the concepts learned in theory. The students of Ambitus World School in Vijayawada were engaged in the subject and performed experiments with great enthusiasm in a professional scientific environment. They learned the selection of apparatus and materials needed, and worked very systematically to obtain the desired results. Conducting experiments in the chemistry lab created an interest in research among the learners. This improved their confidence and left a lasting impression in the minds of the children. Practical work in science enabled skill development, improved specific knowledge, and fostered understanding of the processes of scientific inquiry.

"Fostering Language Fluency: Interactive Flash Cards Ignite Learning In 4th Gamma 3rd Language Hindi Class"

Utilizing interactive flashcards, grade 4th gamma 3rd language Hindi class enhances alphabet learning. These cards make mastering letters enjoyable and effective. Each card connects an alphabet with a corresponding word, promoting vocabulary growth and language skills. Students engage in lively discussions, associating letters with real-world objects, strengthening cognitive links. This method nurtures memory, critical thinking, and confidence. Beyond linguistic benefits, it fosters lifelong language appreciation, expanding communication abilities. Ultimately, these flashcards create a vibrant learning atmosphere, cultivating linguistic prowess while kindling an enduring passion for language exploration among the students.

Conjunction Station: Words Used To Join Two Ideas Or Sentences Together

A conjunction is a fundamental part of speech that serves to link words, clauses, or sentences together. The students of Grade 4 from Ambitus World School in Vijayawada have significantly improved their writing and

communication skills by acquiring proficiency in their usage. In a creative endeavor, the students constructed a Fortune Teller utilizing conjunctions and adeptly applied them in pertinent contexts. This interactive and hands-on activity has transformed the process of learning about conjunctions into an engaging and enjoyable experience. Through active participation in this activity, students have comprehended the advantages of conjunctions, thereby enabling them to effectively incorporate these connectors into their daily communications.

Math activity "exploring polygonal relationships: a family flow chart math activity"

Exploring the Family of Polygons through Flow Charts

The activity "Exploring the Family of Polygons through Flow Charts" is a great way for students to learn about polygons and their relationships. Students will learn about the definitions of different polygons, how they are categorized, and how they are connected to each other. They will also practice their critical thinking and visual communication skills by creating flow charts that illustrate the relationships between polygons.

By engaging students in this interactive activity, they will not only deepen their understanding of polygons but also enhance their critical thinking and visual communication skills. This activity fosters collaboration and creativity while making math more engaging and relatable.

AMBITUS KINDER WORLD, HYDERABAD

Green Day - 'Eat your Vegetable Day'

At AKW, we believe in instilling a love for nature and the environment in our young learners. To celebrate the wonders of the natural world, on 3rd July 2023 we organized a vibrant and educational Green Day. On this special day, our school transformed into a hub of green-themed activity 'Eat Your Vegetable Day', where our little ones learned, explored, and celebrated the beauty of nature. Across the CEY grades learners were involved in different activities like

making of 'Vegetable Hand Band', 'Lady Finger Block Printing' and 'Create your own Vegetable Platter'. To promote healthy eating habits, our Green Day celebration included a variety of delicious, green-themed snacks and lunch. These snacks not only satisfied their taste buds but also served as a reminder of the nutritious benefits of incorporating green vegetables into their diet.

Show And Tell Activity

To hone the oratory skills and boost the confidence of our young learners, 'SHOW AND TELL ACTIVITY' was organized for the students of CEY I on July 5th, 2023. The activity helped to enrich their vocabulary, develop confidence, and improve communication skills. The students expressed their feelings and emotions in a fun-filled and loving way, as they showed and talked about their favourite toy. The efforts put in by the young orators won the hearts of one and all.

Collage Making Activity

To nourish the experience of students for pictorial composition "Collage Making Activity" was conducted for CEY II on July 5th, 2023. The theme was based on "The Special Me". The students were all ready with pictures of their favourite food, clothes, and people to prepare the collage. This activity helped the tiny tots to improve their fine motor skills. It was an engaging and stimulating learning experience for our little ones.

My State Dress

Learning about different cultural aspects offers new experiences for children. It also helps them realize that we're all humans, despite differences in how we look or dress, or what we eat or celebrate.

Keeping this in mind, the 'My State Dress' activity was conducted for CEY III students. This activity developed a sense of mutual respect and acceptance of the cultural diversity present in our country. For this activity, students came dressed up as people from different states and spoke a few lines about that state.

BEYOND ACADEMICS

AMBITUS WORLD SCHOOL, HYDERABAD

First Day Of The School

It's time to start a new beginning, a beginning of character and academics. "We must remember that intelligence is not enough, Intelligence plus character—that is the goal of true education"- Martin Luther Nothing can be more adventurous than the first day at school. Ambitus welcomed all the little ones with a gracious opening ceremony with lots of first day pictures to go into the memory lane. We wish each of our little munchkins the very best on their first day of school.

EID UL-ADHA (BAKRID)

EID UL-ADHA (BAKRID) is an auspicious festival of Muslims. This festival of sacrifice is considered the second most important festival in the Islamic calendar after Eid al-Fitr. They express their gratitude for Allah and learn devotion, sacrifice and brotherhood bonding reinforcing our life skills through diversified festivals. Ambitus is proud to celebrate all its diversified cultures and festival with fervor and enthusiasm.

International Yoga Day

International Yoga Day is marked on June 21st every year, and was proposed and driven by our honourable PM Shri. Narendra Modi, to spread awareness about the power of yoga and meditation. Ambitus celebrated

International Yoga Day by performing multiple yoga asanas and pranayama. The school resonated with the OM chants and the children enjoyed the laughter therapy (silent and loud).

Safety Club Program

On July 19th, the Cyberabad Police conducted an inspiring awareness program at Ambitus World School. The event aimed to address critical societal issues, focusing on women's safety, drugs, and cyberbullying.

Thought-provoking skits were performed, illustrating the dangers of bad company leading to drug abuse and the perils of cyberbullying. The initiative strengthened the bond between the police and the community, fostering trust and a sense of security.

Tick, tick, tick – of the Khilwat clock was heard and the joyous voices of students echoed, “Chowmahalla Palace! A clock which has been ticking away for around 251 years showed the way for the students of Grades VI, VII & VIII of Ambitus World School to the esteemed seat of AsafJahi dynasty. Students were overwhelmed with joy to see the grandeur of the palace.

This visit was organized to make the students understand the importance and experience the beauty, art, history and cultural heritage of the place. Students mentioned that it's a memorable experience visiting the palace, which is a standing testimony of the grandeur of the royal era.

Ambitus Sports Academy - After School Hours

Delighted to share that Ambitus Sports Academy took off from 1 August after school hours. Students were enrolled according to their interest in Football, Cricket, Basketball, Badminton and Swimming. Dedicated Sports Coaches are giving extensive training to the students for one complete hour. Ambitus Sports academy has collaborated with Hyderabad Football Club (HFC) and National level Football players will be guiding our students.

AMBITUS WORLD SCHOOL, VIJAYAWADA Aromatic Essence Of Indian Cuisine And Natural Remedies

Spices form the heart and essence of Indian cuisine, infusing every dish with their irreplaceable flavors and aromas. Their absence renders authenticity impossible. Beyond culinary prowess, these potent ingredients double as natural remedies for common ailments like colds and digestive issues. In grade III, a unique Hindi activity fosters familiarity with spices, aligning language learning with cultural awareness. This endeavor not only imparts linguistic skills but also cultivates an appreciation for India's rich culinary heritage. As children delve into the world of spices, they not only acquire linguistic prowess but also a holistic understanding of the significance these ingredients hold in Indian tradition.

AMBITUS KINDER WORLD, HYDERABAD First Day Of The School

On the first day of school, anticipation fills the air as students and teachers embark on a new journey of learning and growth. As educators, our primary goal is to create a warm and welcoming environment that sets a

positive tone for the rest of the academic year.

On 14th June'23 our little Ambitarians were welcomed to school and had a school tour. All the learners were excited to get to school and learn through friendship.

Friendship Day

On 3rd Aug'23, at AKW our little Ambitarians witnessed a magical friendship day together! Our learners greeted each other with big smiles and warm hugs. They were engaged in crafting friendship bands using colorful strings and beads. They learned to share and play with peers, symbolizing their bond of friendship. Friendship Day at AKW was a day filled with laughter, sharing, and celebrating the beauty of friendship.

International Yoga Day

Finding inner peace, one pose at a time please. Our little Ambitarians celebrated the International Yoga Day on 21st June 2023. YOGA brings together physical and mental disciplines to achieve a peaceful body and mind. The excitement of our little Ambitarians was palpable as they geared up to celebrate the International Day of Yoga.

The session ended with meditation of and students were relaxed, full of positive energy after it. It's never too early to start cultivating healthy habits for mind and body.

Tell A Tale With Parents

What a joyous day it was at AKW as we embarked on a magical journey through the world of imagination during our "Tell-a-Tale with Parents" activity!

Our parents became story tellers for our CEY Learners. They amazed us with their boundless creativity as they shared enchanting tales.

GYM Time

Our gymnastics classes for kids offer an exciting and dynamic way for young learners to develop their physical abilities and confidence. Through a series of fun and engaging activities, children are introduced to fundamental gymnastics skills, such as balance, coordination, flexibility, and strength. These classes not only promote physical fitness but also instill discipline, teamwork, and a sense of accomplishment, creating a solid foundation for a healthy and active lifestyle.

AWARDS AND ACHIEVEMENTS

AMBITUS WORLD SCHOOL, HYDERABAD

1- Cambridge Checkpoint assessments measure our learner's skills and understanding of English as a first language, Mathematics, and Science. Our learners took these tests in May 2023 and came out with flying colours in the above-mentioned areas. The reports received from Cambridge International, show how our learners have performed individually, in comparison to the rest of their class and against an international average.

Below are the toppers for both the segments, Cambridge Primary and Cambridge Lower Secondary Checkpoint. They fall in the category of "OUTSTANDING SCORES" where they have demonstrated a comprehensive level of understanding, knowledge, and skills of the curriculum content, and are very well prepared for the next stage of learning.

A- Cambridge Primary Checkpoint (Grade V)

- i) English toppers: 50/50
Deekshitha D, Joshitha G
- ii) Math topper: 50/50
U Saharsh
- iii) Science topper: 50/50
K Poornitha Nyra

2- Cambridge Lower Secondary Checkpoint (Grade VIII)

- a) Overall toppers: 50/50 in English, Math and Science
Abhilash Reddy Matcha, Pilli Naga Lahari

2 - Cambridge IGCSE(Grade X)

Cambridge IGCSE assessment takes place at the end of the course, ie Grade X and includes written and oral assessments. This broadens opportunities for students to demonstrate their learning across subjects. The exam was taken in the months of February- March 2023, the results of which were declared in May of the same year.

The following are our toppers for the Board exam, 2022-23:

- 1 - Viramallu Akshara
- 2 - Shrishan Adipuram
- 3 - Sri Nithya Yalavarthi

Ambitus World School, Vijayawada

A - Cambridge Primary Checkpoint (Grade V)

- i) English toppers: Veda and Praharsha
- ii) Math toppers: Veda and Bhavin
- iii) Science toppers: Bhavin and Praharsha

B - Cambridge Lower Secondary Checkpoint (Grade VIII)

- i) English toppers: Ananya and Abhinav
- ii) Math toppers: Ananya and Lakshayagna
- iii) Science toppers: Ananya and Rashmika

STUDENT ARTICLES

Her Love, A Gentle Rain

In her embrace, I'm drenched with love,
Like a gentle rain from the skies above.
Her nurturing touch, a soothing shower,
Washing away worries with each passing

hour.

Her heart, a garden blossoms rare,
A tapestry of colours, beyond compare.
Her love's fragrance fills the air,
Enveloping me in a tender care.

- Sri Aadhya, Grade V Delta - AWS HYD

Opening The Books To Our Future Generation

The Right to Education (RTE) is a crucial law that ensures every child has free and compulsory access to quality education in a safe and helpful learning environment. This act states that it is mandatory for a child aged between 6 to 14 shall compulsorily receive education by any means- may it is public or private. The RTE comes under Article 26, this particular law was formed on the remarkable day of 4th August 2009 however the act came into effect on April 1, 2010. The RTE also ensure washrooms for boys and girls too. It has helped boost literacy rates, especially among marginalized communities, and contributed to the country's progress and development. The RTE fulfils the duties of -setting standards pupil to teacher ratio, providing clean water, placing a surveillance system for a clean future, making sure teachers are trained, stating that a child should not be neglected if they fall back in their education and that children should not be held back without parental consent. Over 100 places have opted for this esteemed scheme for the betterment of their country's future.

We must realize that no education leads to a lack of employment which means you will have no money so you have no financial source of income and finally this leads you to the gates of poverty.

One might wonder why we even need this law. Well, not all parts of the world adhere to the betterment of a pupil. The thoughts to make the child's future is blocked by cultural taboos, violence, lack of facilities and many more so to ensure a small amount of education the RTE has been initiated. The most admirable thing that education will give you is the power to stand on your own in the real world. It will help you to be independent and fight for your good. The RTE believes in the importance of education because it empowers individuals and most importantly it's a powerful tool in breaking the cycle of poverty, and gender inequality. When children receive an education, they are more likely to secure stable employment and earn higher wages in the future. In addition, Education empowers individuals, breaks down barriers, and fights discrimination. It is a tool for creating a more inclusive and honest society. In conclusion, the RTE is a law that sets a benchmark for schools and the world so that every pupil can receive an education.

- Srinilaya Bijjala Grade VIII Beta - AWS HYD

"My Beloved School: Where Exploration, Inspiration, And Education Unite"

I love my school as we explore, inspire, educate, and develop- ideas every time. Our school is one of the best schools in Vijayawada with CAIE & CBSE curriculum. We have many sports in our school. We all have friendly teachers who help us with sports, studies, and everything in the curriculum.

We explore, as we do research on unknown things in the world. In this way, we use our skills such as – communication, collaboration, analysis, problem solving, creativity & thinking, etc following this process, we develop our skills.

We inspire, as we fill someone with confidence and desire to do something. We all have confidence that we can achieve anything

through various competitions. We study hard with the help of our various subject teachers for any doubts and we keep a quote- "confidence is the key to success ". In this way, we inspire.

We educate and develop ideas, as we learn, educate, and inspire we develop ideas all around the world. We implement different ways of exploring ideas and composing solutions that best solve the problem in the most effective manner.

We even have many sports! We play sports to develop our leadership, sportsmanship, and so on... even some of my school friends have been selected for tournaments.

Therefore, I love my school a lot.

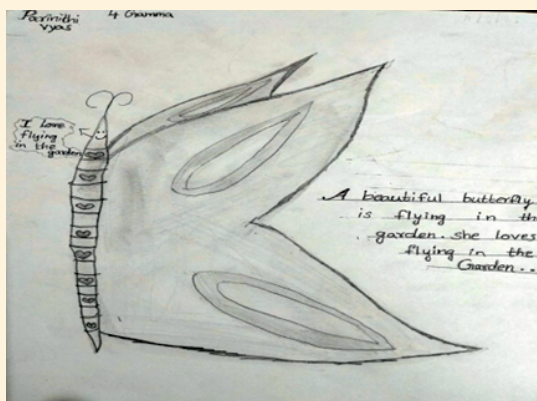

- Praharsha Grade VI – Alpha, AWS VJA

“Embrace Your Best: The Power Of Effort And Fulfillment”

If you always try your best
Then you'll never have to wonder
About what you could have done
If you'd summoned all your thunder
And if your best
Was not as good
As you hope it would be,
You still could say,
"I gave today
All that I had in me”

TEACHERS ARTICLES

The Essence Of Freedom: Embracing The Spirit Of Liberation

Freedom, a word that evokes powerful emotions and stirs the deepest yearnings of the human heart, has been at the forefront of humanity's quest for a better existence since time immemorial. It is an intangible yet essential essence that resides within each of us, a yearning to break free from the shackles that limit our potential and a desire to soar toward the vast horizon of possibilities.

At its core, freedom embodies the ability to make choices without coercion or fear of repercussions. It grants us the autonomy to shape our lives according to our beliefs, desires, and dreams. This sacred gift empowers us to determine our destinies, to define success on our terms, and to embrace our individuality unapologetically.

In societies where freedom is revered, the human spirit flourishes. It is

within the framework of freedom that creativity finds its wings, and innovation knows no bounds. From the depths of the soul, art, literature, and science emerge, forging paths that expand human understanding and enrich the tapestry of our collective wisdom.

However, the essence of freedom extends beyond the mere absence of physical restraint. True freedom is a state of mind, transcending external circumstances and propelling us to conquer our internal barriers. It is the liberation of the mind from prejudices, biases, and self-limiting beliefs. When we free ourselves from the chains of our own doubts and insecurities, we unlock our potential and uncover the infinite possibilities that lie within us.

At the heart of freedom is the recognition of the interconnectedness of all living beings. Our freedom is intertwined with the freedom of others, and our actions reverberate across the human experience. The essence of freedom demands that we respect and uphold the rights and dignity of every individual, fostering an inclusive and compassionate society.

History bears witness to the immense power of freedom to transform nations and inspire movements for justice and equality. Time and again, people have risen against oppression and injustice, guided by the relentless pursuit of freedom. From civil rights movements to struggles for independence, the essence of freedom has been the driving force behind positive societal change.

As we celebrate the essence of freedom, we must also acknowledge the responsibility that accompanies it. Freedom is not a license for anarchy or a callous disregard for others' well-being. It necessitates the recognition of our collective responsibility to safeguard the freedom of all, ensuring that it does not lead to the oppression of some.

In a world that grapples with challenges and uncertainties, the essence of freedom is a guiding light that reminds us of our shared humanity and our capacity to rise above adversity. It is a force that unites us in our pursuit of a more equitable and just world, where freedom and compassion walk hand in hand.

The essence of freedom is a timeless spirit that knows no borders, transcends language and culture, and unites the hearts of humanity. It is a call to cherish and protect this invaluable gift for ourselves, our posterity, and generations yet to come. As we embrace the spirit of liberation, let us nurture the essence of freedom within us and strive to create a world where freedom truly rings for all.

- Ms Surabhi Rawat, Lower Primary/TEDx Coordinator - AWS HYD

“The triumvirate of human motivation: necessity, curiosity, and the perils of greed” - AWS - Vijayawada

As I sit pondering the great mysteries of life, I am struck by the profound truth that necessity is indeed the mother of invention. It is through our most pressing needs that we are driven to explore the vast universe of possibilities and create solutions that will satisfy our cravings. And yet, it is not necessity alone that propels us forward, but also the insatiable curiosity that lies deep within our souls. This burning desire to know and to understand is the engine of our greatest achievements, driving us to explore the uncharted territories of the mind and the world around us.

But even as we celebrate the power of necessity and curiosity, we must also acknowledge the dark force that lurks within us all: greed. This insidious monster threatens to swallow us whole, driving us to endless, mindless consumption in a vain attempt to fill the bottomless pit of our desires. Greed is the thief of joy, the enemy of contentment, and the destroyer of all that is good and pure.

them to light our way through the darkness of greed. Let us create with purpose and explore with wonder, always mindful of the dangers that lie in wait. For it is only through the balance of these three forces that we can hope to achieve true greatness and find the fulfillment we so desperately seek. So let us go forth with courage and determination, and may our endeavors be guided by the noble ideals of necessity, curiosity, and above all, restraint.

**- Mr Karthik Sai Lakshman Y, English Mentor,
Academic Coordinator,
TEDx Team Lead,
ASW - VJA.**

Therefore, let us embrace the twin pillars of necessity and curiosity, using
