All set to Fly this Season...!

Messages:

Ms. Sudha. P. Sridevi,
Principal, AWS Vijayawada

Dreams that keep you awake

The annual retreat is near, and we wish you a wonderful time. Yes! Joy and happiness should be part of your annual vacation, but can you think of something extra?

What drives you?

What keeps you awake at night? Would you like to try that out? This is the best time.

Ranging from cooking, sports, technology, tinkering with materials, etc., are. Try out your passion, as passion follows a profession. Look beyond your academic books and build something that you can call your own. Take some time to consider the hobbies that surround you and chart a course that will help you stand out. All the best and I wish you a happy holiday

Ms. Lalitha Naidu,
Principal, AWS Hyderabad

The success mantra for youngsters

Success and hard work go hand in hand, so if you have to believe in yourself then nothing is impossible. Though your dreams may seem hard to achieve, you should not underestimate the power of hard work and persistence and keep on reaching the goal.

What helps you succeed? So many elements that contribute to success might have crossed your mind in the twinkling of an eye; isn't it? Let me just pick one among them all. It happens to be one of my favourites.

It is the ability to aim high. First of all, people do not aim high because they are afraid of their success. It might be a startling statement. But it is true. I have met many who thought that to succeed is a crime. To them, success means that they are somehow stealing someone else's opportunity.

But that is not true. This world is a big place and God has created a space for you and me and everyone. It is only when you do not use your full potential. Sometimes people do not aim high because they are afraid to fail. If you look at yourself honestly; you are carrying a gold mine within you. Well! Who is to blame? I hope you got the answer. So, aim high and be the best you can be.

Finally, people do not aim high because they think that they are not significant. Oh, how it disheartens me to see so many choose to stay behind the curtains and on the side benches without taking an active part in the drama and game of life! Dear youngsters never fall into the comparison trap. The world will always try to make you feel inferior. Do not buy into that lie for a moment.

Each one has been created unique. There is nobody on planet Earth like you. With any of your shortcomings, you can still contribute much to the lives of others. Stop thinking about yourself alone. You can be the lifeline for many others in need.

So aim high and be the best you can be. Let me conclude. Never fly low. I repeat it; never fly low. Like the law of gravity; negatives will always be around you trying to pull you down. But there is a higher law of flight and freedom that leads to joyous achievement. I cannot but quote those purposeful words:

"Always aim high, but remember: height is not the measure of height. Aim is. So, aim more. Soar more. Never be aimless. Nor more-or-less. Be more-than-before. Much more.

This is your true destiny. Look at the vast blue expanse of the skies. Isn't there a stirring in your heart; a longing to soar high?

So, aim high and be the best you can be.

Make excellence the one habit that will always follow.

God bless you all!!

SPOTLIGHT

Ambitus Kinder World Inauguration

Futuristic Edu Initiatives in the quest for innovation and novelty embarked on its journey and launched Ambitus Kinder World on March 04th, 2022. It was inaugurated in the august presence of Mr. Bollineni Seenaiah - Chairman, Mr Panduranga Chary - Vice Chairman, and Mr Narendra Prasad Edpuganti - Founder Managing Director of Futuristic Edu Initiatives The First Cambridge Early Years Learning Centre in Hyderabad is all set to make a mark in the formative learning years of the tiny tots. Wishing them great learning ahead!!

Sayonara! - Farewell 2022

On the 12th of March 2022, Ambitus had organized an Oscar-themed farewell for our dearest 10th-grade batch '21-22'. The program started with a welcome dance and our principal, Ms. Lalitha Naidu addressed the gathering. The ceremony included Jyothirdaan – where the light of Ambitus was ignited to spread knowledge and wisdom, where outgoing students took an oath to uphold the values and ethics imbibed in the school. Cake cutting and gift distribution were subsequent to the great dance performances by Grade 9 that had the audience spellbound. A 'Mr. and Miss Ambitus' contest was held during the event, the winners of this contest were Mr. Shreyas & Ms. Dyuti. The skit by Grade 9 earned laughter from the audience. The event was wrapped up with a DJ session and a vote of thanks. All in all, saying the event was fun would be an understatement. Goodbyes are hard but signify a new beginning, we wish them a bright and happy future ahead!

- Ishita Nair, Grade 9 Alpha

ACADEMICS

CEY Corner @ Vijayawada

Shaded with the deepest purple....

The CEY of Ambitus Vijayawada celebrated the purple day with enthralling activities on 17th March 2022. It was a visual treat to look at the little ones dressed in purple. The celebration started through thought-provoking questions on the color - Purple. Ambit

tots excitedly participated in various fun-filled activities like rhymes recitation, show and tell, role play, skit, riddles, magic tricks throughout the day. These activities help them to improve their creativity, recognition, language, and imaginary skills to strengthen their holistic development. Students sharpened their creativity by making different purple shaded crafts and identified various objects in purple color. It was a wonderful learning experience for the children to enhance their learning with more interesting play-based activities. Finally, students enthusiastically shared their takeaway as purple is associated with royalty and is the color of calmness, and creativity.

CEY Corner @ Hyderabad

Purple colour day celebrations

Learning about different colours and hues is a joyful experience for the little ones. The purple colour day was an exhilarating experience for the students.

Young Ambi Crafters

Primary instructors gave young Ambitarians clay or playdough to explore how it stimulated their imagination and creativity. The texture and doughy consistency of the clay was loved by the children, who attempted to mold it into interesting shapes. Clay modelling is a therapeutic pastime for children in a variety of ways. One significant advantage of clay modelling is its function in early childhood education. A paper titled, 'Fine Motor Skills and Early Comprehension of the World: Two New School Readiness Indicators', by Claire E Cameron et al, published in Developmental Psychology (2010) found that having superior fine motor abilities in pre-school is a major predictor of a child's subsequent academic performance in reading and arithmetic,' according to one study. So, teaching our children how to use their fingers precisely to form the perfect shape out of clay will significantly improve their fine motor skills and scholastic performance.

- Soumya M, English Mentor

BEYOND ACADEMICS

Colours of Holi: @ AWS VJA

At Ambitus Vijayawada the morning of Holi was celebrated along with thanksgiving to all our support staff. The day was marked with games and festivities. The appreciation towards school and their work were clearly seen in their participation. The event was simple and an accolade to the years of service rendered and a small note that we thank them for all the hard work of keeping our campus neat and clean.

Holi! The Indian Festival of Spring and Joy

Holi, widely recognised as the 'Festival of Colours', is indeed colourful and vibrant at Ambitus World School. This time, it was flawlessly conducted by our outstanding students of Grade 7 CBSE, who have tirelessly worked to make this festival a block-buster. The dances performed and the songs melodiously sung were undoubtedly a treat to the audience. Holi celebrations provided a lot of joy and merriment. Everyone appeared to be in a good mood, and the kids seemed to enjoy it the most. They are usually energised when they see so much enthusiasm. They were overjoyed to be able to share their excitement with their pals.

For a perfect send-off, the teachers applied tikas upon the foreheads of the students, which signify the Hindu tradition of love, fraternity, and new beginnings.

- Akshara Viramallu, Grade 9 Alpha AWS Hyd

Eldrok – K-12 Summit

Eldrok is one of the world's leading business exhibition and conference organizers, specializing in conceptualizing events in three major verticals, namely; Education, Architecture, and IT. Our compassionate principal, Ms. Lalitha Naidu, was a Speaker at Eldrok India K-12 Summit on the topic of "Use of Tech tools, Innovative technologies, and Robotics in Modern K – 12 Education" on March 9th, 2022 in ITC Kohenu, Hyderabad. The discussed key points were:

- Use of interactive tech tools and digital content in transforming school education.
- Global best practices in reshaping the learning experience through the use of innovative technologies.

- E Shanvi, Grade 10, CBSE

The Stimulating Math Quiz

It was an engaging session for Grade 8 Students of Ambitus World School Hyderabad. As their mentor, Ms. Jayasri led the students to the vast indoor stadium to conduct an enlightening event filled with young enthusiasts and engross them with a collaborative math contest. Two teams were picked as multiple papers with the concepts of math were written and another huge pile of answers were written and were scattered far, a team member would be holding back where their teammates would be collecting the numerical values of a particular concept, sprint across the complex at a specific time limit and hand it over to the teammate waiting for inputs. The dynamic, intrigued pupils diligently took part in this activity.

- Snehitha, Grade 8 Alpha

Basic life support and first aid training @ Kims, Kondapur

Ambitus teachers in Hyderabad recently attended Basic Life Support and First Aid training at Kims Hospital, Kondapur.

Ms. Nagadevi, the primary Math mentor who participated in the programme, comments, "This CPR and First Aid course was a fantastic learning opportunity. The instructor's expertise and talents were disseminated throughout the lesson in great detail. The information and skills learned will prepare everyone for critical thinking, problem-solving, and crises, with the goal of improving patient quality for the rest of their life." This session was accurate, and professional, regardless of one's level of healthcare. It is strongly advised for anyone from any walk of life who wants to learn more about saving other people's lives to take the course."

- Soumya M, English Mentor

Teachers' Achievements

AWS VJA Sports mentor Mr. Vijay has been selected as a coach for the National-level men's shooting championship which will take place in Punjab from 25th March to 27th March, bringing laurels to the school. Under his able guidance, the men's team secured a place in the quarterfinals on 27th March '22. The management and the teachers highly appreciated his service to the nation.

AWS VJA teachers who successfully completed their Professional Development Qualification (PDQ) offered by the FESDA. We thank them for their achievement

YASHASWI LAKSHMI AKKINA of Grade 3 AWS VJA, won a Medal and certificate of distinction in **SOF's National Science Olympiad** for the year 21-22

STUDENTS' ARTICLES

Rana's Magic Workbook

Faith is a complicated thing. Sometimes we pray to God for something and if it does happen, we will worship the same god again and again but if it doesn't happen, we will start not to believe in God. But what if my prayers do happen, or is it God who made it happen? Either way, where is the proof? How can you blame God if your wishes are unfulfilled?

"God, please give me good marks in my maths this year at least," said Rana, Rana is a student who started his fourth year of school. He aced every subject but fails miserably in maths. This year his parents decided not to buy books as they thought that it was a waste of money. So, he got hand-me-downs for all his books. Alas! those hand-me-downs are 10 yrs. old.

When Rana opened the maths workbook, he saw his favourite cartoon characters. Ben Ten on the top, Oogy on the bottom, Chota Bheem in between, and so on. When maths class started, he took out his books, and when he opened his workbook, all the characters started explaining the answers to him. Guess who's happy? Because he got 100 out of 100 for the first tie, it was like a dream. He went and informed his mum that God asked Ben Ten and his friends to help me with maths." His mother laughed and said, "Yes Rana, it seems as if He did ask them to come and help you!"

For the next 2 semesters the cartoons helped him out, 12 days before his finals, he woke up and went to school. He immediately took out his workbook and couldn't find his pals anywhere. He was very sad and angry, so he asked God, "God, where are my Ben Ten and all my other friends? There is nowhere to be seen. Upon no answer in vain he went and asked his mother "Amma, where is my Ben Ten? Did you see him anywhere?" His mother said "No silly" Rana screamed and out of frustration, he said "I CAN'T PASS MATHS THIS YEAR WITHOUT THEM" his mom said, "Silly you, those cartoon characters never existed, it was all in your head. Those characters were your way of learning maths!" he asked her "Then is God real?" His mom replied saying "God doesn't give anything you want; he just gives you hope to do everything."

Randheer C.K - VI Alpha, AWS VJA

Happiness

The Happiness is
Something which makes our soul swell,
And make things well
It is full of glow
Which makes our senses grow?
It is very perfect
Which leads to a big effect
It is all around you
And it surrounds you
It is always right
And it is a wonderful sight
It is a huge kingdom
Full of freedom
Now you may think this poem is not right
But I shall not give up and continue to write

- Jatin - Grade IX Alpha, AWS VJA

Dragon Land's Savior

We have come at Sterling's request.
Oh, brave knight, you are the best.
The literature frogs have made a fine mess,
revealing an open secret to another kingdom.
My friend here Scribble hopper,
a far-too-chatty frog,
revealed the secret of we dragons.
I know I am a last-minute dragon,
reporting you to the princess.
Your heart is gold, but I wish...
you weren't a chicken.
As we neared the castle,
angry clouds marched across the sky.
When we entered the castle, the rain was dancing on the roof.
Poppy platypus picked up prickled pineapples
and offered them to us.
Besides Sterling, a lizard was lounging on the land licking a lollipop.
Oh, knight, you are honest, true, and kind,
Who possesses a brilliant mind?
Only you can stop the fight,
and make the Land of Dragons right.

Tanvi - Grade VI Alpha, AWS Hyd

Teachers' Articles

My journey as a teacher in Ambitus is completely different from my experience. Although I felt out of place in the beginning, my principal, colleagues supported me and encouraged me to move ahead with confidence. I have been motivated to an extent that I was able to complete my professional development course with ease under the able guidance

of my principal – Ms. Sudha.P.Sri Devi. The course helped me to rediscover myself as a teacher by practicing many new strategies. Apart from learning, I was not only able to help my students understand and apply the concepts but also helped to participate in co curricular activities. By working here, I feel that I got a second chance to go back to my childhood. The school has made me take up tasks which is proof that I am an all-new person.

Ms. Sri Mahalakshmi, Science Mentor, AWS VJA

మా పాఠశాల

మా పాఠశాల పేరు అంబిటస్ వరల్డ్ స్కూల్. మా పాఠశాల హైదరాబాద్ నగరంలో ఎంతో అత్యుత్తమ పాఠశాల మాది. మా పాఠశాలలో పెద్ద పెద్ద సైన్స్ ల్యాబ్లు, కంప్యూటరు ల్యాబ్లు ఉన్నాయి. మా పాఠశాలలో ఎన్నో రకాల పుస్తకాలతో కూడినటువంటి పెద్ద లైబ్రరీ కూడా ఉన్నది.

వీటన్నింటితోపాటు చాలా రకాలైన చెట్లు మరియు ఎంతో అందమైన మొక్కలతో కూడినటువంటి పెద్ద గ్రౌండ్ కూడా వున్నది. మా పాఠశాలలోని ప్రదానోపాధ్యాయులు గారు ఎంతో అనుభవం వున్నవారు. పాఠశాలలో ఎంతో ఉత్తమమైన ఉపాధ్యాయులు వున్నారు. వీరు అందరు విద్యార్థులకు ఎన్నో విషయాలను చెబుతారు. చదువుతో పాటు విద్యార్థులకు సామాజిక మరియు సంస్కృతికి సంబంధించిన కార్యక్రమాలను నిర్వహిస్తారు. ఇన్ని సదుపాయాలతో విద్యార్థులకు విద్యను నేర్పిస్తున్న సమయంలో కరోనా అనే వైరస్ వలన ప్రభుత్వము యొక్క ఆదేశాల మేరకు పాఠశాలలు మూసివేయబడ్డాయి.

కరోనా వైరస్ కారణంగా విద్యా సంస్థలు అన్నీ మూతపడ్డాయి. కారణంగా విద్యార్థులు అందరు ఇళ్ళకే పరిమితము అయ్యారు. ఈ నేపథ్యంలో స్కూల్ యాజమాన్యం ఎంతో పెద్ద హృదయంతో విద్యార్థులకు అన్లైన్ తరగతులు నిర్వహించడం ప్రారంభించారు. అయితే అన్లైన్ విద్యావిధానము ద్వారా విద్యార్థులకు లాభాలతో పాటు కొన్ని నష్టాలను కూడా ఎదురుకున్నారు. ప్రపంచంలో ఎక్కడ వున్నా విద్యను అభ్యసించే విధముగా ఏర్పాటు చేశారు.

దీనితో విద్యార్థులు బయటకు రాకుండా, కరోనా బారిన పడకుండా విద్యార్థులను కాపాడుకోవచ్చు. ఇది ఇలా ఉండగా, అన్లైన్ తరగతుల వలన విద్యార్థులు గంటలు తరబడి ఫోన్ లేదా కంప్యూటరు చూడటం ద్వారా వారి యొక్క కంటి చూపు దెబ్బతినే అవకాశం ఉంది. అన్లైన్ విధానము ద్వారా విద్యార్థులు ఒంటరిగా ఫీల్ అవుతున్నారు. ఇంకా వారి యొక్క శారీరక మరియు మానసిక ఎదుగుదలకు సంబంధించిన సమస్యలను ఎదుర్కోవడానికి వారు కావున యాజమాన్యం విద్యార్థులను దృష్టిలో పెట్టుకొని తిరిగి విద్యార్థులను పాఠశాలకు వచ్చి, వారు తరగతి గదులలో విద్యను అభ్యసించేలా చేస్తున్నారు. దీని కారణంగా విద్యార్థులు మరియు ఉపాధ్యాయులు ఎంతో సంతోషంగా ఉన్నారు. చాలా రోజుల తరువాత

విద్యార్థులను చూడటం వలన ఎంతో సంతోషంగా ఉంది.

- Subhashini J, Telugu Mentor

Adaptation to the New Normal

Looking at my two little boys slogging through their online classes in recent times made me question the conventional notions of parenthood. As the pandemic continues to disrupt the flow of education in the tender minds, technological platforms have become a new norm. I believe that the best education is achieved by interacting with peers. Pandemic has defined a new set of roles and responsibilities for the parents.

I always believe that true education always happens in action. While teachers teach lessons and concepts, it is the role of a parent to help children to assimilate the knowledge into real-life situations. Being physically available to quench the thirst of those inquisitive minds can't be overstated. Taking them along on short trips and making them experience life first-hand will truly make parenthood more meaningful.

Our journey with AWS began just before this world was hit by the pandemic. While confusion and anxiety were lurking amongst the parents and kids, the consistent and constant flow of information from AWS was the calming force that kept our trust intact. The school shifted to the online medium at

lightning speed. Not only was the transition quick, the speed and ease at which they trained the teachers, and kids, as well as parents to adjust to this new method of learning, were also impressive. Even the course content was made inclusive, in terms of covid appropriate behaviour and helping parents while staying at home.

V. B. S. Ram Prasad - Parent of Pranav Karthik Vakala, II Beta & Dev Pranay Vakala, I Alpha, AWS VJA

Along the Adventure of Ambitus World School

We, the parents of our ward studying in Ambitus World School Hyderabad, have successfully been traveling together for 9 years now. We remember when this school was first built and I joined my ward; we recall that we never experienced a day when we got troubled to send our child to school. I was glad to see that a school like Ambitus existed that doesn't just put forth good education but also provides better extracurricular activities too; As it is widely observed that humans have a tendency to judge their intelligence by their reports during exams. It was pleasing to see how the school tried their best to provide good quality education even during the hard times; Virtual teaching and learning was a new dimension back then, despite those struggles, the establishment put forward the best and is highly applauded. The tremendous efforts and dedication of teachers being a backbone for our students' lives and guiding them are admirable as Ambitus has shaped my child and made her who she is now and I hope it maintains the streak to reach higher places.
