"Freedom is the open window through which pours the sunlight of the human spirit and human dignity."

As our great country celebrates its

75

years of freedom
Ambitarians salute our motherland.

Ambitus™
World School
Going Higher. Going Places.

Ms. Lalitha Naidu Injety,
Principal, AWS Hyderabad

Unlocking the potential in each child

It is known and acknowledged that the purpose of education is not just to acquire knowledge and skills, but to unlock in each child the potentiality and ability to do much more and be capable of creating by using one's knowledge and skill.

For this it is essential to teach children how to observe, explore, and experience the connectedness among different phenomena around us.

The curriculum should provide scope for developing in each child the ability to perform the higher order thinking skills related to learning like analysis, synthesis, creation and evaluation. Only then can we make the children lifelong learners and kindle their imagination and creativity to do something innovative or something that interests them. Learning is a multidimensional process and cannot be limited in classroom setups and constrained within the prescribed textbooks. Rather, the task of the school and teachers should be to inculcate the habit of critical thinking in students; enabling them to look beyond the mundane nature of classroom and textbooks because they are not the only source to "educate" them for their holistic development.

Children's learning should be enabled in such a way that they take responsibility for their learning. At every step of their learning they should pause, reflect and set the tone for their learning. Mere rote learning, or learning from a certain text and reproducing will not create independent learners.

If the students are given the space and motivation to pursue their interests, they can do wonders which would give rise to boundless possibilities. After all, education is an endless journey of possibilities and true education unlocks the potentiality in each child.

Ms Sudha. P. Sridevi,
Principal, AWS Vijaywada

Flags of Freedom

Where the mind is without fear and the head is held high

Where knowledge is free

Where the world has not been broken up into fragments by narrow domestic walls;

Where words come out from the depths of truth;

Where tireless striving stretches its arms towards perfection;

Where the clear stream of reason has not lost its way into the dreary desert sand of dead habit;

Where the mind is led forward by thee into ever widening thought and action into that heaven of freedom,

my father, let my country awake.

- Rabindranath Tagore

Today, we have the freedom to fly our country's flag high, practise the religion of our choice, and speak our minds. Can we even imagine a day when we are not allowed to do it freely? 75 years of Independence is not a celebration, but a milestone of achievement. This clarity of thought is not only to assure us of the best to come, but also the best to be. COVID has taught us that freedom is fragile and does not require foreign forces to hamper it. What is the learning we take home? Every day is a present to live, every moment creates precious memories, and every mind has beautiful thoughts. Let us appreciate these positives around us. This will take us a long way toward achieving success. Freedom without selfishness provokes eternity. This is what makes great leaders. The strength and confidence in the righteousness they believed in did flourish in their followers. We may fail and fall, but the strength to rise again and stand on our thoughts makes us true freedom fighters.

Ambitus World School, Hyderabad celebrates India's 75th Independence Day!

India's 2022 campaign slogan is "Azadi ka Amrit Mahotsav." Ambitus World School commemorates India's 75th Independence Day. The Chief Guest for the occasion was Mr. Parvathalu Neela, parent of a CEY 2 student.

Our Chief Guest, hoisted the national flag to start the festivities while a melodious rendition of the national anthem song. The flow of the event continued with third-grade students dancing to the song 'Ae Watan'. The Grade 7 children performed a dance to the song Vande Mataram while our choral group singing gave the celebrations a lyrical beat. Our Chief Guest and our Esteemed Principal addressed the students on "the new generation of students taking on the responsibility to lead the country to be amongst the top nations in the world".

Overall, the festivities were beautifully planned and presented. Inter – House singing competition was held with patriotic songs as the themes. The entire atmosphere was reverberating our love for our country. Hats-off to the students for their outstanding performances.

- Sruthi Vadali, Grade 7 Beta

75th Independence Day @ AWS, Vijayawada

India celebrated its 75th Independence Day with full zest and zeal. This year, Independence Day was celebrated as Azadi ka Amrit Mahotsav. Ambitus World School, Vijayawada also geared up for the celebrations and conducted several programs, including a flag hoisting on our campus. The entire campus was lit in tricolor, celebrating India's greatest festival.

The special gathering, held in the school field from 09:30 am, was followed by the hosting of the tricolor flag by our CEY2 parental community. Mr. Thakur, father of a CEY2 student, Ashvi Thakur, addressed the students on the importance of such a celebration.

Later, the Ambitots displayed their patriotism and love towards their motherland through a parade, which was enough to give goosebumps. The campus was filled with the aura of patriotism all around us as patriotic songs were played in the background.

The colorful programmes started with a ballet, performed by 60 students, making the spectators revisit the historical incidents and experience the struggle and pain that brought independence. The ballet's performance was so emotional and touching, and it was evident through the standing ovation given by the audience.

A spectacular dance performance by 30 students, to various patriotic songs, resonated the patriotic fervor, and it was an eye feast to see parents, teachers, students, and everyone on the campus synchronously gelling for a common cause: Independence Day and Patriotism.

The speech by Mrs Sudha P Sridevi, principal of the school, reminded us of the thought of "we" rather than "I" during the struggle for Independence and the need for it today.

The event was well-managed by MCs Mr. Krivi, Ms. Haswitha and concluded with a vote of thanks proposed by the School's Head Girl, Ms. Jeswitha Rose, who thanked everyone for their continued support.

INDEPENDENCE DAY CELEBRATIONS AKW, HYDERABAD

Ambitus Kinder World celebrated the 'Azadi Ka Mahotsav' with the young citizens over the week with craft ideas commemorating the 75 years of freedom. The young buds gave wings to their imagination and crafted beautiful badges, little flags and various other articles. They participated in the 'Fancy dress competition' and also danced on the tunes of Patriotic songs.

Celebrating this day contains the greatest importance in the life of the children in India, keeping this in mind young learners were taught about national symbols and enlightened about the great freedom fighters and their sacrifice for our country. Young Ambitarians were not only exhilarated in actively participating in the weeklong celebration but also played a part in the flag hoisting to honor the historical event of India's Independence.

Flag Hoisting at AKW celebrating 75 years of freedom.

Independence Day reminds us of all the freedom fighters who displayed beyond doubt in every way that their life is worth inspiration for us. Our responsibility is to maintain that glory they fought for and won for India.

To immortalize their sacrifice throughout the world Indians, hoist the National Flag especially in Government and Educational institutes to sensitize the people of India especially the children, who are the future of the country.

In Ambitus Kinder World, Gachibowli it was a celebration in its own way as every member of the student community accompanied by their family participated along with the AKW and FEI team for this national celebration.

The occasion was even more commendable when the youngest chief guest Ms. Vaanya Jinger from Cey -1, along with the guest of honor Mr. Apparao.A, operation manager of FEI hoisted the tricolor into the air of freedom and celebration, hoisting of flag was followed by singing of our National Anthem in one tune and saluting the flag. The gathering was colorful as it was filled with bliss and satisfaction. Eminent personalities from school, parent community and management addressed the

gathering speaking on the importance of freedom and Independence Day. The celebration completed in the most joyous manner.

ACADEMICS

Switching Tenses

Learning English is not only an art of intelligence but also activates the muscles of imagination, exploration and creativity. To facilitate it, Grade 3 students played a game called "Simon Says." The game is played by giving a word to a learner, who in turn gets to guess the verb from the other group of learners. The task was exciting and improved their vocabulary. The students are then divided into groups of four and a working model of tenses is displayed on each desk.

Each group of learners spinned the wheel and wrote a present tense verb, past tense verb, and future tense and switched the actions. This helped my learners to be inquisitive and independent. Later, one representative from each group framed sentences and shared them with the whole class. This way, active learning is being encouraged by the mentors.

- Jasmine Suvarna Helen. B, PRIMARY HRT, AWS VJA.

The Energy Sources Around

Learners devise a research question to identify the energy consumption levels in schools. The students of grade five gather information on the variety of uses of energy in school: heat, light, electricity – and how energy is used in different places like kitchens, classrooms, offices, etc. Students had an enriching experience in touring the school. They came up with innovative ideas and discussed different uses of energy that were around them. The exploration took place in the kitchen to understand the heat energy, the ground to understand the solar and wind energy, and the dance and the music room to check kinetic energy.

The interesting thing was that even a non-participative student was also able to understand different types of energy and explain them satisfactorily. This is one of the best experiences that I have had that has boosted me to prepare for innovative activities to engage the students.

- Chathurya Seerapu, GP Mentor, AWS VJA

Grade 1 Hindi Activity.

If we listen, we forget. If we do, we remember. The alphabet GA is taught to students in Grade one who believe in this learning objective. The activity is to make GA with the clay that they brought to make the shape of the letter on the coloured paper. The activity quickly made them learn with happiness.

PRE WRITING (CEY STUDENTS)

Writing is a skill that helps with the presentation of ideas. Early childhood writing starts with tracing. Tracing builds the foundation for drawing and writing letters. It helps the little ones refine their pre-writing skills, and develop their concentration with focus, hand-eye coordination, and the ability to grip and manipulate writing tools. This also helps in enhancing visual-spatial skills.

- Cey-1, Class Mentor.

BEYOND ACADEMICS

Learning beyond the classroom: AMBIQUEST

From "World of physics" to "Fun in chemistry" and "Exploring Biology" the students have taken Ambiquest 2022-2023 to the limelight. The inaugural ceremony began with the lighting of the lamp and was followed by our Chief Guest Dr. Suresh Babu Kotini's informative and motivational lecture.

He took students on a wonderful journey of his life; he described what it was like to study in his era and how much he achieved. He was a truly inspirational speaker to all the students who were present and proved he is a star in today's world. Later the parents were guided into respective classrooms and witnessed the wonderful presentations by the students.

Ambiquet focuses on new learning, the word quest means to find, and when it comes to finding knowledge Ambitarians are number one at it.

The parents had an overview of different topics. Ambiquet shows that learning is not for one but is for everyone who in this case were the students and the parents.

Despite all the knowledge that the students have acquired, Ambitus is not resting on these laurels but is committed to acquiring even more.

- Srinilaya Bijjala, Grade 7 Beta

Life skill @ Ambitus, Vijayawada.

Prevention is better than cure. Sometimes nature does not forget to remind us of this simple logic. On August 10th, students at Ambitus, Vijayawada, were given training on fire evacuation through a fire alarm raised. The impetus came from the need for actual life skills training in high-rise buildings. The students were informed that such monthly drills would be planned and that the speed of evacuation would be planned with full alertness during such drills. As part of the fire drill training, both teachers and secondary students received quick and efficient instruction on how to use the extinguishers.

- Jaatin V, Grade IX - AWS VJA

Synchrony

Synchrony, an Internal symposium was organized at AWS, Vijayawada. The aim of organizing such an event was to present students' ideas on a chosen topic and to share their knowledge with their fellow students. Secondly, it aimed to show the research interest of the students in the topics. The event lined up with student presentations on topics ranging from the events that shake the Earth to resolution of conflicts. Students needed a transdisciplinary approach to the topic which allowed them to extend their understanding without the subject barriers. The confidence with which the student fraternity took up this opportunity and demonstrated the enthusiasm of discussions to reach global heights. Students from other grades were the spectators, and they too enjoyed it a lot as the event was so informative. Synchrony 2022 was an amazing and informative event for students. These types of short-term events are a sure-fire way to increase the contemporary knowledge bank of the students.

- Mallika.G, HRT - AWS VJA

Martial arts @ Ambitus World School

Martial arts training is essential to young adults; it gives students the tools they need to learn and apply skills that help them realize not only what they are capable of, but also give them a sense of accomplishment, as well as safety. Knowing that there are skills to recall and use when attacked, reduces fear. Martial arts emphasize the development of both the body and the mind. Students work on qualities such as concentration, discipline, patience, and perseverance to achieve this growth and to become the best version of themselves. Even advanced martial arts students would yearn for more opportunities to learn and understand at a deeper level.

The pre-primary students of Ambitus World School practiced martial arts in their activity classes. Such programs not only emphasize collaboration and respect between students and teachers, but also between students and their peers. This behavior leads to improved interaction between the child and teachers as well as classmates. It was also observed that the programme encouraged them to be on their best behavior during the school day. Each and every student came out of the session with a sense of satisfaction and fulfillment.

- Master Abhilash, Grade 8 Alpha

Field trips are extended classroom learning

Trip to Dhruva college of Fashion Technology for grades 9 and 10, on career avenues in fine arts.

Trip to Salarjung Museum – grade 7 and 8. Students learnt about the culture and viewed the artifacts collected during the Nizam period.

Trip to Crazy cars
Sudha cars
museum Grades 3
and 4th the artifacts
collected during the
Nizam period.

Field trip to Birla Planetarium Grades 5 and 6

Field Trip to Handloom Hub

Handlooms form a precious part of the legacy, exemplifying the richness and diversity of our culture and the artistry of the weavers. The handloom industry in India has a long tradition of excellent craftsmanship, representing and presenting the vibrant Indian culture. These activities are spread across thousands of towns and villages in the country and transcend the skills from one generation to the next. The Ambitarians had an opportunity to visit Pedana, a municipality in Krishna Dist, Andhra Pradesh, which is famous for its handlooms and hand block printing. The handloom centers are amidst the lush green fields.

The extensive fabric making involved two types of looms—manual and electronic looms. Here at Pedana, fabric is twisted to make yarn. Later, several rows of yarn are used to make sarees. Next, several rows of yarn are stretched out to the length of a house, then the design is chosen and marked on the layers of yarn, involving many technicalities. The students from grade 6 to 10 have observed each and every process keenly, making a note of every detail and collecting souvenirs. The trip to the destination was enjoyable, and even more enjoyable was the learning process.

- Saanvi, Grade – IX, AWS, VJA

THE SIBLING BONDING (Raksha Bhandan)

Raksha Bhandan- the festival which unites brothers and sisters. It shows the unconditional love between them; the love between siblings just grows stronger through the years. Though we fight with them or argue with them, the bond between us and our siblings can never be broken.

Raksha Bandhan is celebrated in the Shravan month, to strengthen the bond between brothers and sisters. It is celebrated by a sister tying a Rakhi wishing for her brother's success and a long and happy life for him. Her brother, in return, promises to protect and save his

sister from any harm for the rest of his life.

The special bond between brothers and sisters was wonderfully presented by the students of Grade 4 Beta on the bright morning of 12th August through their informative and colorful assembly, which told us all about the significance of Raksha Bhandan, and why it is celebrated. Firstly, we had a marvelous skit, which showed us how Raksha Bandhan has come into existence.

The celebration of pure love did not end with the skit; we had a melodious and sweet song performed by girls from Grade 4 Beta to express gratitude to all brothers in the school for their affection and care for sisters.

To wrap up the assembly in style, all the students from Grade 4 Beta had a mesmerizing dance performance in store for the audience, which concluded the special assembly for the day, bringing everyone together to celebrate the occasion. The celebrations of Raksha Bandhan in Ambitus World School were short yet meaningful.

- Master Advait, Grade 8 Alpha

The Raksha - The Brother's Promise ..

Rakhi is more than just a silken thread; it is a tradition that beautifully binds brother and sister in a relationship for the rest of their lives. Raksha Bandhan, a much-anticipated Indian traditional festival of sisterly and brotherly respect, was celebrated on August 12th, 2022 by tiny tots of our CEY at Ambitus World School in Vijayawada. Students came in ethnic attire to the school. To make this day memorable, a Rakhi making competition for the children was also held.

They all decorated their Rakhi with their tiny hands and expressed their true love for each other by decorating the Rakhi thali beautifully. Children were told about the sacred bond between brother and sister. It was a delightful celebration for students,

which made the environment full of joy and love.

- Vanidevi.kusumba CEY3ALPHA, Lead Mentor - AWS, VJA

FRIENDSHIP DAY CELEBRATION at AKW

To have a good friend is the most beautiful gift one can have in their life, to cherish this feeling of friendship the young buds made hand- crafted friendship bands for their friends. They enjoyed the day with games and play-time to celebrate this amazing bond. Teachers showed them how to make friends and spend joyful moments with them, young ones saw a beautiful short film on bonding and kind gestures that one should show towards their friends and peers. Educators shared their bonding and stories of their friendship with their colleagues to inspire the Ambitans.

Dosthi nibhana mere dost

'Friends are the family that you choose'

It's time to celebrate friendship. The Ambitots didn't leave any stone unturned. The day was celebrated to appreciate the bond of friendship that inculcates the feeling of acceptance. The students were told stories of true friendship and encouraged to tie the friendship band around their peers. The idea that friendship crosses the level of ages was elaborated by their teachers, who described what a true friend would do when a situation arises. It was also reiterated that while in school, one can make as many friends as possible. The enthusiastic toddlers were very excited and energized about celebrating the day, leaving a lot of laughter around.

- Sailaja Malladi, EYP - 1 Mentor - AWS - VJA.

Janmashtami Celebrations

Krishnashtami commemorates the birth anniversary of Lord Krishna.

According to Hindu legend, Lord Vishnu's human manifestation, Krishna, was born on this day to vanquish Kansa, the demon king of Mathura and the brother of Krishna's upright mother, Devaki. Janmashtami is celebrated as a victory of good over evil.

Ambitus World School celebrated the birth of an eternal statesman and an embodiment of diplomacy with a glorious assembly. We started the assembly with a divine prayer, Slokas from Bhagwad Gita, to bestow the blessings of Lord Krishna upon us and to start the day with a calm mind.

Following, a skit was performed by the students to show the events that took place in the past leading to Janmashtami. The skit was brewed like a book full of information! In the assembly's final part, the students put up a spectacular show for the audience. The audience were mesmerized, their ears soothed, their mind was calm with thoughts of Lord Krishna.

Janmashtami Celebrations @ AKW

A day of joy and jubilation heralding the birth of the most beloved lord Krishna is celebrated as Krishna Ashtami or Janmashtami. This divine moment was made to come alive on Friday 19th August by the little munchkins of AKW, who came attired as Radha and Krishnas. Owing to the blue shade of

Lord Krishna the theme for Janmashtami at AKW was kept 'Blue'. The school premises were decorated with flowers, especially the swing which was decorated for the bal-gopals to swing along with little Radhika. A short-animated film was shown to throw light on the life of Lord Krishna. Students participated enthusiastically in various activities apart from dancing on the tunes of Radha-Krishna songs. The day was filled with pomp and spirit of festivity.

Yellow Day Celebration

Colors make me happy,
Colors make me rejoice,
Colors give me identity and
Colors give me a choice.

Every color is unique and holds a special place in a child's life, hence to let the

young learners explore the world of hues, Ambitus Kinder World celebrated the 'Yellow Day' on 22nd July. Ambitans explored every possible aspect of the color and participated in several group activities. They inferred how important the yellow sunlight that the yellow sun emanates is the source of life. Also, they learnt how the yellow fruits and vegetables are equally important for their good health and growth.

Awards & Achievements

Collins-Spelling Season 3 BEE

Collins-Spelling Season 3 BEE has a speciality of its own since two students from Ambitus World School, Vijayawada, participated in it. Abinav Atluri of grade 6 and Abhiram Vennam of class 7 are the selected participants.

State Level selection of students for Shooting Ball.

The district shooting association has recently conducted selections for sub-junior girls and boys shooting ball, in which the students of Ambitus World School, Vijayawada-Ms.Roshini.V, Ms.Hasini.A, Ms.Sophie, Mr.N. Suhas, and Ms.Jessel Rohan-have brought laurels to the school

under the able guidance of the school's Physical Director, Mr. Vijay.G. The winners were applauded by the directors and the principal.

My eyes locked for hours.
My gaze lead into tears,
Found myself on the heights
Eyes filled with tears of pride,
Remembering the days of fight,
Salute to the fighter who brought
A new dawn of hope.

- Abhiram N, Grade 7, Alpha.

TEXTBOOK

When taught using a live model rather than a textbook, the topic is simpler to comprehend since we can see what truly occurs within our bodies. The live model was quite helpful to me in remembering the idea. Visual learning imprints are stronger than mental fantasy. The notion has been made simpler by the live model. Models portray strange things using familiar items. Models can assist you in mentally imagining something that is challenging to see or comprehend. Models assist us in comprehending the procedure.

- G.S.N.Drutika Grade 5, Alpha

Celebrating the game - The Chess

International Chess Day is celebrated at Ambitus World School ,Vja by inviting Mr. Shaik Khasim, the Chairman of Global Chess Academy. In his speech, Mr. Khasim emphasized the importance of playing the game. He also added that the game relieves stress and helps in improving IQ. In his interactive session, he clarified the doubts of the students and also played a game with them.

Healthy body

Eat food as fresh as grass
And as precious as brass
Do your exercise every day
Or your health might give away
“Noble deeds and hot baths are the best cures for depression”
And the dirt will get repulsion
Stay in the fiery sun
And have some fun
Become a painter
By painting your teeth
To get rid of the meat
And have a healthy life and breathe.

- Karthik Nera Grade 3

Limiting Internet

Majority of parents express their distress and annoyance when it comes to internet access. The respondents were asked what might be done to keep social media and any negativity away from youngsters and suggested blocking internet access. When you're bored, utilizing your laptop, phone, or tablet to access the Internet becomes addictive. The kids would rather play Minecraft at home than go outside to play. The students would rather type it in a word document and print it out than write it neatly on paper for the assignment. Kids would rather use search engines and the internet for their studies than books and encyclopedias. And gradually, this causes the parents to worry about the physical and emotional well-being of their children. Research revealed that most kids were able to concentrate on themselves, their studies, schoolwork, and social lives when internet use was restricted. As a result, they can study and get high scores in school. Children who study also develop their creativity, critical thinking, and social skills. Thus, parents should rather deny their children access to the internet.

- Ms. Aaradhya, Grade 8 Delta

Exploring earth

By the beginning of the 20th century, most of the earth's surface had been explored, at least superficially, except the Arctic and Antarctic regions.

How do we explore earth?

The earth, like other planets, is explored by spacecraft. Earth orbiting spacecraft observe phenomena through large sensors, satellites will record data that would require tens of thousands of ground based measurements.

Why do we explore earth?

Humans are driven to explore the unknown, discover new worlds, push the boundaries of our scientific and technical limits, and then push further. The boundaries of what we know and where we have been has provided benefits to our society for centuries.

- Ms. Sahassra, 4 Alpha

Teacher's Corner

FRENCH

Les trois principaux idéaux de la Révolution française sont la liberté, l'égalité et la fraternité.

Liberté

La liberté ou liberty était en ce qui concerne 18 le siècle, la liberté signifiait la liberté de toutes sortes de torture et d'abus. Un autre exemple d'oppression étatique était la censure des publications contenant des critiques du monarque, de l'aristocratie ou de l'église.

Égalité

Le système d'imposition témoigne de la différence de traitement entre les personnes. À l'époque, les deux classes étaient la bourgeoisie et le tiers état. La bourgeoisie était plus réticente à partager l'égalité politique avec les rangs inférieurs du tiers état, reflétant ainsi le manque d'égalité entre les gens de cette époque.

Fraternité

Ce troisième idéal, qui signifie la fraternité, était le plus difficile à réaliser des trois. Cet idéal n'a donc eu d'importance que dans les premiers temps de la révolution, et au fur et à mesure que la révolution progressait, cet accent sur l'unité et la fraternité s'est rapidement perdu quelque part.

Bien que les trois idées ci-dessus soient les plus communément liées à la Révolution française, elles ne définissent pas complètement la Révolution française, qui est beaucoup plus diverse.

- Ms. Ashritha, French Mentor

THE FOUND BEAUTIFUL SCAR (Short Story)

Mannan took three minutes of his time, filled it in, signed the required checkboxes, and handed over the consent form at the reception. It was a jaw-dropping moment for the receptionist and the other people at the desk. They asked him, "Mr. Mannan, are you sure that you read and signed carefully?" Mr. Mannan too replied with a proud smile, as his thoughts were totally filled with images of the most handsome gift, of whom he had been dreaming for the past 8 months.

The ward in which Mannan sat suddenly turned into a busy corner, and Mannan felt for a moment as if he was in the morning session of Dalal Street. He saw the doctors' movements transition from a cool and relaxing atmosphere to a helter-skelter ambience. As well, he could smell and feel a few expressions of doctors, which were filled with hatred, when they were approaching him. Mannan couldn't understand what went wrong in his case. He was dumb and couldn't digest any of the expressions of the doctors passing by. The weird staring by all the staff forced him to consider himself a caged animal in that situation.

Mannan was in a reeling sensation, and within a few seconds he collapsed, and he was on the floor. The staff rushed to his rescue. Mannan could sense the attempts being made by the staff to wake him up and bring him back to his senses. He is unable to reciprocate or respond. The hate expressions are still lingering in his mind. He couldn't even recollect the images of the handsome gift that had been there for the past 8 months.

After half an hour, the staff attempts were successful, and Mannan was back, able to breathe. He also could see everyone around him, and to his surprise, the chief doctor approached him closer and placed the most anticipated blessing in a white towel wrap, which was so adorable, and that miniature was trying to find a reliable finger that could guide him on the journey that started just now. The baby just raised its hand, expecting someone to support it. Mannan was just staring at the little finger, searching for its savior, aiming at the sky.

Mannan's vision is fogged, and he can't see anything except a vignette image of his little finger. He quickly came back to his senses and embraced that cute little finger in his palm. It was a heavenly moment for him, as he could feel a new bond that he had never had, but suddenly it was his mother's image that flashes when he closes his eyelids. He didn't want to open his eyes because he may have lost her again, and he wanted to be in that beautiful pain for some more time. A squawk from the new angel brought Mannan back to his senses, and a swift glimpse of the angel turned into a gazing moment as he could see the scar he left on his mother's face when he was a child.

In no time, Mannan broke into tears and started realizing the mistake he made when he filled in the form. It was his mistake. He always wanted to have a baby boy. He never dreamt of having a girl child. Even in the consent form, he crossed out "GIRL" from the gender anticipation check boxes and wrote explicitly "BOY, BOY, & BOY ONLY." This act of hatred toward a child by Mannan shocked the entire staff and that was the reason for the hatred gazing, but in turn, it was the baby girl that acted as an eye-opener for Mannan.

Everyone started congratulating Mr. & Mrs. Mannan on the new arrival, but now it's a very proud moment for Mr. Mannan as he is bearing a girl child, and he is conveying the same to everyone. I AM A PROUD FATHER OF A BABY GIRL.
